

Tran Khiet Loi

Backend Developer Intern

Date of Birth: September 27, 2004

Gender: Male

Phone: 0966388984

Email: khietloi2004@gmail.com

GitHub: <https://github.com/KhietLoi>

Address: High-Tech Healthcare Area, An Lac Ward, Ho Chi Minh City

OBJECTIVE

Seeking a full-time internship to gain hands-on experience in real-world software development, enhance technical and professional skills, and learn from experienced mentors in an industry environment.

EDUCATION

2022 - 2026

Ton Duc Thang University

Information Technology

- Major: Computer Science
- GPA: 8.3 / 10

SKILLS

Languages

C, C#, Python, Java

Backend & Database

ASP .NET MVC/Core API, EF Core, SQL Server, MySQL, JWT Authentication

Frontend

HTML, CSS, Bootstrap

Tools

Visual Studio, Git/GitHub, Postman

Other Skills

Teamwork, Time Management, Technical Document Reading, Proactive in Learning New Technologies

PROJECTS

9/2024 - 11/2024

WarehouseMA - A warehouse management application for buildings, supporting goods import/export and user management

Team size: 5 members

- Analyzed and gathered customer requirements (SRS/BRD) and designed system architecture (ERD, UML) for warehouse operations (internal storage and rental storage).
- Designed and optimized the relational database in MySQL, implementing Stored Procedures to automatically update capacity of Warehouse/Shelves/Floors/Compartments after each import/export transaction.
- Researched and applied algorithms to suggest optimal storage locations to reduce warehouse space wastage.
- Assisted in integrating and resolving data-linking issues from Google Forms/Sheets (via QR codes).
- Implemented modules for customer request handling, order management, and generating periodic import/export reports/invoices.
- Technologies: C# (.NET/WinForms), MySQL, Google Forms API.

03/2025 - 05/2025

PhimHay - Online Movie Streaming Website

Team size: 3 members

- Contributed to database design, movie management, system logging, and collaborated with team members on frontend integration.
- Developed backend features for user authentication, movie approval, search, pagination, watch history, and user interactions (ratings, comments).
- Technologies: ASP.NET MVC, EF Core, LINQ, JWT, SQL Server, Bootstrap, HTML, CSS, JavaScript.
